REMARKS

1. The December 18 NFCAP complains that Figs. 6-8 continue onto additional pages without proper labeling under 37 CFR 1.84(u)(1). This is corrected in the attached replacement figures. We have also corrected typographical errors in the titles of what are now figures 7D and 7F, and matched the orientation of the sheet numbers to that of the remainder of the sheet.

2. The January 15, 2010 NFCAP questions the propriety of the "inset" Figures on pages 41, 42 and 49. These have been deleted from the specification and converted into new Figures 9-11. A brief description of these figures has been added to page 20.

3. The January 15, 2010 NFCAP also states that the sequences appearing on pages 45, 46, 49 and 50 are not identified by SEQ ID Nos. The specification has been amended to supply the SEQ ID NOS.
